The Miami-Dade County Chapter Florida Nursery, Growers and Landscape Association is pleased to present The 2015 Foliage and Nursery Guide

Thanks to our unique climate, outstanding growers and our warm association with Dade County University of Florida Cooperative Extension Service and the University of Florida Research Stations, we have service, information and magnificent products to offer you in the way of foliage plants and associated services.

Dade County nurseries offer the finest plant products, unbeatable service and professional foliage handling and shipping.

The nurseries listed in this guide include thousands acres of shade and field grown stock. By making Dade County your nursery and foliage supply headquarters for both your interior and exterior plant needs, you can be assured that you are receiving the best service and products.

This book was prepared by the Foliage committee of the Miami-Dade County Chapter of the Florida Nursery, Growers and Landscape Association to assist you in locating the plant material and products you need. It includes a list of specialty service for the foliage industry. The Detailed map of the Miami-Dade County Nursery area gives the location of listed nurseries. It is included at the back of the book.

Our office is in the Dade County University of Florida Cooperative Extension Service Building located at 18710 SW 288 Street, Homestead FL 33030. If you have any questions, call 305-248-1117. If we are not in the office, leave a message and Anita Fernandez, will call you back.

LOOKING FORWARD WITH PLEASURE TO YOUR VISIT AND YOUR BUSINESS.

Sincerely,

Jeffrey DeMott

Miami-Dade County Chapter FNGLA President

CLAUDE ROATTA

Action Theory Nursery is a container nursery conveniently located just west of U.S. 1 and the Florida Turnpike in South-West Miami-Dade County. We specialize in an extensive variety of palms but also grow a diverse range of plants. Native and non-native; canopy trees, flowering shrubs, flowering trees, ornamentals, ground covers, tropicals, succulents, edibles, rare collectibles and many more "off the beaten path" species. Our plants are sun grown and shade grown for interior and/or exterior uses. Contract growing is available upon request as well as plant delivery. We offer full landscape design, installation and consultation. Please visit our website for a copy of our 12-page price list.

GREG HAWKINS, SALES DIRECTOR

Whether you're a novice or experienced gardener, you can't go wrong with plants from Costa Farms. Since 1961 this third generation, family-owned business has specialized in growing and distributing top-quality perennials, houseplants, and annual flowers from their operations in South Florida, South Carolina, North Carolina, the Dominican Republic, and the Far East.

From their world-class research and development department to their team of expert plant hunters and growers, Costa Farms is always on the cutting edge of new flower and foliage development. From exotic, easy-care orchids to their show-stopping line of Tropic Escape® hibiscus and mandevilla, the plants and products from Costa Farms are designed to create excitement and drama in your home and garden.

Most of all, Costa Farms supports their plants and products with ideas, information and inspiration. For example, their 02ForYou® indoor plants are specifically chosen for their ability to improve the air quality in your home. And, Costa's Plants of Steel® are chosen for premium performance and tough constitutions. Costa doesn't just find, breed, and grow amazing plants, they also help the Lowe's customer be successful in creating the garden of their dreams-indoors and out.

JULIO

TROPICAL PLANT NURSERIES, FIELD GROWN PALMS & TREES

Medallion Nurseries tropical plant, palm and tree growing operations span nearly 800 acres in Homestead, Florida. Since 2003, Medallion Nurseries has grown a wide variety of quality, Florida Fancy plant and palm material. With an emphasis on supplying Florida re-wholesalers and landscape contractors, Medallion has built a reputation as the go to supplier for high quality tropical plant material. With a focus on service, Medallion has worked hard to build its reputation as a nursery that can "make it happen". Medallion understands that customers have a choice when it comes to buying plants and palms. There are many quality plant suppliers within Florida and this is why Medallion works hard to deliver on its promise to its valued customers. "We will deliver a quality product in a timely manner at a fair price".

MICHELLE PHELPS

With an emphasis on South Florida native trees and shrubs as well as South Florida compatible exotic palms, cycads and flowering trees, our goal is to produce these fine selections in commercial quantities and to do so with long term performance.

We are able to ensure top quality stock from the roots up. Our plants are started in air prune containers, which promote a superior, healthy root system from the first stages of propagation. The plants are staked and pruned according to each varieties need. Field grown trees are carefully staked and pruned to provide a clean stem, central leader, well developed branch structure and heavy caliper.

BILL or DENIS ROTOLANTE

Silver Krome Gardens is a small, wholesale potted tropical foliage-plant nursery growing an eclectic mix of colorful tropical foliage plant varieties in 6", 8" & 10" containers for landscapers, interior scapers, and retail garden centers. Our plants are Nematode Certified for Texas & Louisiana on all 6-inch pots, and California Certified for Philodendron Moonlight and McColley's Finale. Our plant selection includes large colorful Alocasias, flowering Anthuriums, strap-leaf pendant Anthuriums & large bird's nest Anthuriums; Calathea lancifolia, C. makoyana and new flowering Calathea cultivars, feathery California Ming Aralia, three self-heading Philodendrons and some of the most beautifully overstuffed and colorful Jade, Marble Queen & Golden Hawaiian-leaf Pothos baskets available.

MARCELLA LUCIO-CHINCHILLA

Known as one of the most innovative potted plant growers in North America, Silver Vase brought year-round availability of Phalaenopsis orchids to the United States and has revolutionized the industry through many distribution and packaging changes. Most recently they introduced the wildly popular Mystique orchid series, beginning with the world's first blue Phalaenopsis, Blue Mystique.

Their extensive orchid selection combined with a vast assortment of florist-quality bromeliads and mixed gardens make Silver Vase a complete one-stop source for year-round color.

Today their fully robotized and environmentally friendly greenhouse operation produces more than 2 million units from nearly one million square feet of climate-controlled facilities. Silver Vase operates its own distribution network, serving a broad range of customers, and is the largest U.S. partner to Dutch breeder Floricultura.

V.A.S Agricultural Supply is a one stop shopping solution offering quality products for the nursery industry. We offer many varieties of chemical and plastics for plant protection

Landmark Plastics offers bedding, varied container shapes, propagation trays, and decorative hanging baskets.

Haviland Plastics Products – HPP containers in trade sizes. Molded HDPE resin for added rigidity. Seven gallon and larger have molded handles for easier movement and stacking

East Jordan Plastics, Inc. – a responsible choice for grower's pots, hanging baskets and tools for propagators. They also offer printing and branding for retailers.

Summit Plastic Company offers a complete line of printed post which transforms your product into something your customer will appreciate. Our pots are worth a thousand words

Hanes GEO Components offers drainage protection, erosion control, ground stabilization and sediment control plus more.

Florikan offers Nutricote™ fertilizers and blended control release fertilizers that targets nutrients in a single application saving time, labor and money.

Sun Master Films offers shade house plastic for multi annual in clear and white plastic. Also offers over winter protection.

Dow Agro Sciences provides a variety of products and services to meet the needs of our customers. Our research with strategic partners is bringing breakthrough and sustainable solutions to the industry such as:

- Crop-enhancing traits
- Crop protection products
- Post-harvest commodity protection
- Vegetation management solutions
- Residential pest control
- Turf and Ornamental
- Healthy Oils

KeyPlex – offers products for general use on a wide variety of row and tree crops. With a balanced formulation of secondary and micronutrients this product is sufficient for maintaining most crops free of nutrient deficiency symptoms
